

## Reservation+

How to implement:

Insert the following code into your website:

```
<!-- Reservation PLUS start -->
<script type="text/javascript" src="https://booking.previo.cz/iframe/"></script>
<iframe src="https://booking.previo.cz?hotId=123456" scrolling="no" frameborder="0"
width="727" height="2000" name="previo-booking-iframe" id="previo-booking-iframe"
allowTransparency="true"></iframe>
<!-- Reservation PLUS end -->
```

Obligatory parameters of SRC attribute iframe:

hotId=123456 - ID of your hotel (you'll find it in the Hotelgram in the menu "Help -> About")

### Optional parameters of SRC attribute iframe:

lang=en - marking individual language versions (CS = Czech, EN = English, DE = German, RU = Russian, SK = Slovak, IT = Italian, FR = French, ES = Spanish, PL = Polish, DA = Danish, ZH - Chinese)

currency=CZK - the currency (CZK = Czech crown, USD = US Dollar, EUR = Euro, GBP - British pound, RUB - Russian ruble, PLN - Polish zloty, UAH - Ukrainian hryvnia, HUF - Hungarian Forint)

showTabs=reservation-maps - display only selected sections ("reservation" – classic reservation, "stay" - hotel stay packages, "review" – reviews of guests, "pricelist" - pricelist, "occupancy" – availability, "map" - map). The names of the individual tabs are separated by a dash.

hideTabs=stay-review-pricelist-occupancy - hide the selected section ("reservation" – classic reservation, "stay" - hotel stay packages, "review" – reviews of guests, "pricelist" - pricelist, "occupancy" – availability, "map" - map). The names of the individual tabs are separated by a dash.

ga=UA-1234567-8 - Google Analytics account code (Property ID) for measuring traffic

redirectUrl=http://www.mydomain.com/thank-you-for-reservation - URL, it will be redirected to the last step of reservation form after submitting order. As the GET parameters will be sent:

- pole comIds - numbers of just created reservations, with API functions (e.g. Hotels.searchBonuses) is possible to get more detailed informations.
- price - Total price
- currency - currency of reservation
- arrival - arrival date in the format YYYY-MM-DD
- departure - departure date in the format YYYY-MM-DD
- customerName - contact person
- customerEmail - email of contact person

showReviews=partner-online - display only reviews of reservations from partner ("partner"), reservations created on Reservation calendar ("user") reservations made on reservation form R+ ("online"). Individual options are separated by a dash.

expandPriceDetails - Automatically unroll pricing details in step 4 of Reservation process

expandDailyPrices - Automatically unroll prices by days in step 1 of Reservation process

pricesPerOccupancy - show prices for all numbers of guests in the room

minRating=5 - show reviews with a minimum number of defined points. (an integer from 0 to 10)

expand - automatically unroll the details of accommodation packages. You can set unrolling of specific section by one of the options: "description" - section "Package description", "includes" - section "Package includes", "Procedures" – section "Included treatments", "note" - section "Note".

drawBy – how will free rooms be shown in the section of availability "object" - for specific rooms, "objectKind" - for type of room.

theme=red - change color templates - Templates are possible: red, green, orange, dark

hotelDetail=1, shows details at the header (logo, name, number of stars, address, reviews, brief description and photos). Suitable especially if the form is in a new window, or when you refer to it from other sites.

### **An example of the use of optional parameters:**

Hide section occupancy and view the form in the English language:

```
<!-- Reservation PLUS start -->
<script type="text/javascript" src="https://booking.previo.cz/iframe/"></script>
<iframe src="https://booking.previo.cz/?hotId=123456&lang=en&hideTabs=occupancy"
scrolling="no" frameborder="0" width="727" height="2000" name="previo-booking-iframe"
id="previo-booking-iframe" allowTransparency="true"></iframe>
<!-- Reservation PLUS end -->
```

### **Required attributes iframe:**

scrolling="no" - do not show scrollbars inside an iframe (height of form is adjusted automatically)

width="727" - setting the form's width (minimum width is 600 pixels)

height="2000", - setting the form's height

name="Previo-booking-iframe" - the name of the iframe

id="Previo-booking-iframe" - ID iframe

### **Optional attributes iframe:**

frameborder="0" – frame of iframe

allowTransparency="true" - enable transparent iframe

**You can also pre-fill form using the GET parameters and redirect the user to the next step at a**

**time:**

Pre-filled first step of reservation (to order a particular room):

As src of iframe use <http://booking.previo.cz/?hotId=123456> use with the following parameters:

roomType=123 - ID type of room (obligatory)

roomCount=2 - Number of rooms (optional, default 1)

priceType=SingleUse - price type (standard | nrr | singleUse | singleUseNrr) (optional, default standard)

arrival=03.09.2016 - date of arrival in the format DD.MM.YYYY (optional, by default today)

departure=03.09.2016 - date of departure in the format DD.MM.YYYY (optional, by default a day after the date of the arrival)

Section packages with pre-filled first step (to order a particular stay package)

As scr of iframe <http://booking.previo.cz/stay/?hotId=123456> use this parameter:

stayId=123 - ID Package (obligatory)

Section packages with pre-filled 1st and 2nd step (for ordering a specific package on a specific room):

As scr of iframe <http://booking.previo.cz/stay/?hotId=123456> use with the following parameters:

stayId=123 - ID Package (obligatory)

roomType=123 - ID type of room (optional)

roomCount=2 - Number of rooms (optional, default 1)

arrival=03.09.2016 – date of arrival in the format DD.MM.YYYY (optional, default earliest)
